RE: Email accounts for all Local Units

Dear Presidents,

Georgia PTA has acquired a PTA email account for all local units so you will not have to use your personal or work email addresses for PTA business. This will also allow every local unit to have an email account no matter who the officers are and ensure that our emails are getting through to you. The President may use this PTA email account but may also delegate its use to any officer.

Accounts can be activated September 1, 2010.

Please use the link below to access the Email Account Sign Up Instructions.

Just another way Georgia PTA is trying to provide better services to local units.

Thank you,
Sheila
